

Back to School...

I really want to go back to school.
Back then everything was so cool.

I miss my friends and my class,
Now I can only stare through the window glass.

I want to run around all over our playground.

I want to draw, paint and play,
even with the colourful clay.

I really miss my Teacher,
although some days, she is like a Preacher.

Virus, virus can you please go away!
Just for me to have another great school day.
