

## Virus, virus

Virus, virus where are you?

Oh no, you got stuck on my shoe!

Please do go away very soon,

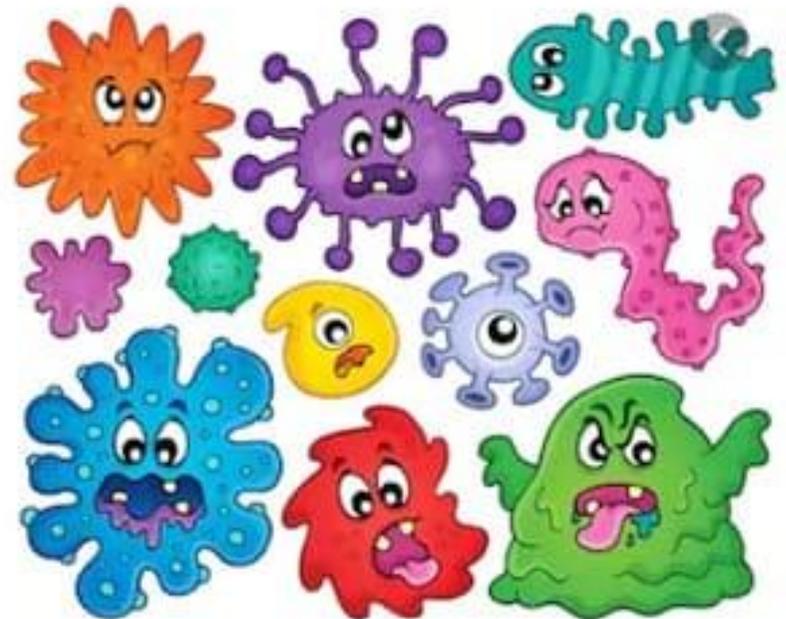

or rather go play on the moon.

With my special mask I will fight,  
just to get back my right.

You are very bad and making our  
WORLD very sad.

Virus, virus where are you?

You have got to go now sjoo, sjoo sjool!
